

*Los Altos Food Products Inc.*

28 de Octubre, 2016

To whom it may concern,

Los Altos Food is a family owned and operated company that has been in business for over 25 years. During which time, we have served our customers by delivering them with the highest quality dairy products. This commitment to excellence motivated us to contact London Consulting Group in March of 2016. Their methodology effectively guided us in the process of becoming SQF certified. With their initial assessment of our Food Safety system, they presented a unique project plan to meet the SQF standard and our operational needs.

Throughout the project, their hands-on approach and systematic methods helped us develop a strong documentation foundation customized to our needs and SQF compliant. Said foundation will provide continuous improvement initiatives, all of which support our growth plans as a company.

Their highly qualified consultants and our highly experienced employees gave this project a great balance between technical and practical solutions. We will continue implementing their recommendations to strengthen and improve our system.

At Los Altos we understand that our most valuable asset is our dedicated employees. With London's assistance, we formed an expert team that is prepared to meet and exceed all Food Safety standards. The skills that we have developed, will allow us to continue satisfying our customers with safe quality products.

Working with London Consulting for the last six months has been a truly enriching experience for us. I am certain that their knowledgeable team will be of great benefit to any company seeking Food Safety and Operational advice.

Sincerely,

Jesus Lizaran  
Sr. Vice President
