

March 17th, 2014
Montebello, California

To whom it may concern,

At Unix Packaging, Inc. we specialize in Beverage Bottling and Packaging. Our 75,000 square foot State-Of-The-Art facility is home to one of the most advanced beverage manufacturing facilities in the US.

We would like to express our complete satisfaction with London Consulting Group for the results obtained during the seven-month project that they developed for us between the months of June 2013 and January 2014.

During the project, London Consulting Group addressed different areas of the company to ensure that they comply with high safety and quality standards. The following goals where achieved:

- Silliker Food Safety Inspection, August 2013, pass with 96%
- SQF level 2 Certification, January 2014, with a score of 97%

The results of the project surpassed our expectations. With Silliker and SQF Certification, Unix Packaging Inc. has gained an outstanding competitive advantage that will contribute to our growth as a quality co-packer.

Due to the aforementioned, we highly recommend London Consulting Group as a consulting firm with the capacity of carrying out improvement projects that positively impact any company's bottom line.

Sincerely,

Bobby Melamed
President
